V Š B - TECHNICAL UNIVERSITY OF OSTRAVA, RECTOR

Supporting letter on nomination for an honorary doctorate degree for Win Aung, PhD., P.E., Dr.h.C.

I am strongly supporting this nomination as a representant of VSB – Technical university of Ostrava, Czech republic which honoured Dr. Win Aung this doctorate in 1999. From this time he is also a member of the Scientific Board of our University. He has been enthusiastic for international understanding and cooperation in engineering, and an initiator for the adoption of international cooperation in education and research as a springboard to launch further advancement in engineering.

I know Dr. Win Aung, as a chairman of the iNEER Board, from his outstanding and excellent leadership as a founder of the International Conference on Engineering Education (ICEE) series in 1994 and, in 2004, the International Conference on Engineering Education and Research (iCEER) series. He co-founded the International Network for Engineering Education and Research (iNEER Network) in 2000, and is serving as its Secretary-General, and is a member of the International Board of Advisors. Since 2001, he has been the Principal Editor of the iNEER Innovations Series, an annual publication of the iNEER Network chronicling worldwide innovations in research and education. He is a member of the International Steering Committee (ISC) of iCEER-ISC since 2004 and of ICEE-ISC since 1994.

VSB – Technical university of Ostrava is fully recognizing his scientific excellence in the field of heat and mass transfer.

I am sure that honorary doctorate degree of University of Pecs for Dr. Win Aung will be in right hands.

With best regards

prof. Tomáš Čermák, Ph.D.
