

**International Conference on Engineering Education
ICEE-2014**

June 2-6, 2014, Riga, Latvia

CALL FOR PAPERS FOR SPECIAL SESSION IN

Innovative Web-Based Teaching Strategies and Tools

Papers are solicited on online teaching. The web is often used for providing course materials such as lecture notes and recorded lectures, animated simulations, assignments and online tests. An intermediate mode of this delivery, often called “blended learning” uses both online and face-to-face techniques. The advent of tablets greatly enhances this approach. The emphasis and spotlight have been on frameworks for providing online-course content and assessment through online-tests. However, there are many other subtle phases in the learning process, such as introduction of tablets and the use of online tools to enrich face-to-face learning. The aim of this session is to bring together educators that experiment with innovative and alternative uses of web technology in teaching in an attempt to go beyond the established use of web technology in engineering education.

This conference emphasizes development of international partnerships in education and research. Through special sessions and international workshops, it provides ample opportunity for discussing future cooperative projects. For more information on iNEER, one of the principal sponsors of the conferences, visit: <http://www.ineer.org>

IMPORTANT DATES

Submission of abstracts:	January 17, 2014
Notification of abstract acceptance:	February 7, 2014
Submission of papers:	February 21, 2014
Notification of acceptance:	March 14, 2014
Final Paper to be received by:	March 28, 2014

Submitting Abstracts and Papers: Please submit abstracts and papers through the link for Special Sessions at the ICEE-ICIT 2014 web site:

<http://www.ineer2014.rtu.lv>

Session Co-Chair:

Vojislav Ilic
University of Western Sydney
College of Science, Technology and Environment
Locked Bag 1797
South Penrith DC
NSW 1797, AUSTRALIA
