ICEER 2004

International Conference on Engineering Education and Research

Organized as an information exchange forum, ICEER-2004 will seek to advance education and research through collaboration, partnership and networking. As our knowledge-based society continues to evolve, paradigms in engineering education are also changing. ICEER-2004 will provide a platform for examining current practice and to plan for the future. We welcome new ideas and proven best practice from around the world.

This international conference will be held at the Bouzov Castle, and in the historical Convent Hall in Olomouc. A pre-conference workshop will be organized in Prague, to deal with the Conference principal theme, "Progress Through Partnership". The workshop participants will convene in a conference room at the historical compound of the Wallenstein Palace; now the Seat of the Senate of the Czech Republic Parliament. The action will take place under the auspices of the Senator, Vaclav Roubicek, Esq.

Venue of the conference

Prague – Workshop in building of Senat - Upper Chamber of Parliament of the Czech Republic. Since the Middle Ages to these days Prague has been famous as one of the most beautiful cities of the world and has been attributed adjectives such as “golden”, “hundred-spired” or “stone dream”. The capital city of CR was listed in the UNESCO World Cultural and Natural Heritage Register.

Olomouc – magical pearl of Moravia with unique historical ancient monuments in Gothic and Baroque style, with a ring of colourful parks and medieval city walls surrounding the centre of the oldest town part.

Bouzov Castle is located in the Middle Moravian Region, near the Olomouc City. It was founded probably in the early 14th century. Architectonically Bouzov was reconstructed according to south German castles as main residence of Grand Master of German Knights Order.
