Subject: From iNEER: analysis of abstracts submitted for iCEER-2013 MARRAKESH and upcoming critical dates

Dear Colleagues:

I would like to give a quick report on the results of abstracts submitted so far to iCEER-2013-Marrakesh, as well as to remind you about upcoming critical dates.

(1) Analysis of abstracts

An analysis of the abstracts so far submitted shows that 247 abstracts have been submitted from 57 countries. The total for the number of authors is 615, which includes authors of all abstracts. That is, if an author's name appeared in more than one abstract, he/she is counted as an author for each abstract.

The abstract count for each of the 57 countries may be seen in the graphical representation shown in the following link:
