

The Silesian University of Technology has successfully applied for the organisation of ICEE-2005. This international conference on engineering education has been previously organised in Taipei, Chicago, Rio de Janeiro, Ostrava, Oslo, Manchester and Valencia. The conference highlights the worldwide progress and experiences in engineering education, serves as a forum for information exchange and creates the possibilities of initiating the mutually beneficial contacts in the field of education and research. The ICEE conferences are organised in a collaborative effort with the members of iNEER, International Network for Engineering Education and Research.

ICEE-2005 Topic Areas

Papers are solicited broadly on the subject of modern methodologies and techniques of education that make use of linking possibilities provided by means of computer and telecommunication networking in order to globalize the education process and thus enhance the possibilities of students and teachers exchange among universities all around the world. The fields of interest include but are not restricted to:

- multimedia teaching tools,
- current trends in engineering education,
- internationalization and globalization of engineering education,
- collaboration between universities and industry,
- internet technologies in education,
- research and development links,
- engineering education in the age of digital technology and global communication,
- distance learning and self-access learning,
- virtual and tele-laboratories,
- role of engineering education in creating the information society,

ICEE-2005 GLIWICE

- biotechnology and environmental protection,
- multidisciplinary design integration,
- convergence of international higher education programs,
- international co-operation through students and staff exchange programs,
- accreditation and quality assessment,
- other topics.

ICEE-2005 is organised by SUT in the year of 60th anniversary of establishing the Silesian University of Technology in Gliwice.

ICEE-2005 Social Programme

During the ICEE-2005 the participants will have a unique opportunity to visit the old capital of Poland – Kraków, one of the most famous and glorious towns in Europe for its historic and architectural values. Kraków together with the nearby magnificent salt mine Wieliczka – which the participants are also going to visit – was placed on the list of the first twelve major historic sites in the world by the UNESCO World Heritage Committee, it was also appointed the cultural capital of Europe in 2000.

Deadlines

January 31, 2005

Submission of abstracts

February 28, 2005

Notification of acceptance/rejection

April 29, 2005

Early registration

May 31, 2005

Full paper submission

May 31, 2005

Deadline for author registration to secure printing
