Subject: Regrets: no BUTE representative to Gainesville

Dear Dr. Aung,

Thank you very much for your detailed briefing and photos from the various INEER meetings recently (in Olomouc, Saratov and of course in Pecs and Budapest).

As Dr. Peter Moson foresaw in his e-mail to you on 27 September, BUTE can unfortunately not send any representatives to the Gainesville meeting.

Former Rector Dr. Detrekoi whom we met together on 6 July sends you his greetings and I am sure that Professor Dr. Károly Molnar who took over from 1st August on as Rector of BUTE will also agree that adjoining the main events of the INEER conference in Pecs in the summer of year 2007 BUTE will also welcome the participants for a gathering in the capital of Hungary.

Hoping to continue correspondence and work together for this prestigious aim,

Yours,

Antal Adam, Director
Department of Research and International Relations (DRIR)
