PROPOSAL TO HOST iCEER 2013 CONFERENCE
Marrakesh 26-29 June 2013

Finland, Turku

30 July 2012

Plan

1. Chairs
2. Hosting Institution
3. Partners
4. Marrakesh– Events
5. Social Program
6. Call For Papers Draft

Chairs : Hamadou Saliah Hassane, Haqiq Abdelkrim, Amine Berqia

Marrakesh

Morocco is a safe and stable country. Morocco offers the guaranty of excellent quality sunshine for most of the year. Spring time is particularly warm and pleasant. In spring temperatures are around 23-26 °C in Marrakech. The trees are in bloom and the mountain peaks still have snow on them… ideal for making fantastic photos.

How to get to Marrakesh

Marrakech can be reached by many direct flights from most important European cities. The **Menara International airport of Marrakesh** is very close to Marrakech Down Town (10 minutes).

There are also a lot of **daily direct flights to Mohamed V International Airport in Casablanca from North America (Montreal, New York) and Asia**. Casablanca is about 45 minutes flight to Marrakesh. A connection pool is already available between the Moroccan company **Royal Air Maroc** and many others companies. Marrakesh is about **3 hours by train from Mohamed V International airport.**

The Hosting Institution

ENSIAS: École Nationale Supérieure d'Informatique Appliquée et Systèmes

National Higher School of IT

Vision Statement: *To be a top tier* **college of engineering** *specialized in* **information science and technology** *that is renowned for integrating undergraduate and graduate education, research, innovation & entrepreneurship, and service to address evolving national and global needs.*

Mission Statement: *The mission of ENSIAS is: to* **educate** *future leaders and contribute to the professional workforce in information technology and engineering; to* **excel in research and innovation** *that discovers new knowledge and enables new technologies and systems; and to embrace a culture of service to and engagement with our communities and professions.*

Principal Educational and Research Activities :
Software Engineering; - Embedded Systems Engineering; - Information Systems Security; - Networks and Communications; - Business Intelligence; - LogisticsA

Partners

Act as a catalyst for

innovative policies and

practices conductive to

change in education through

the pooling of knowledge,

experiences and lessons

learned . Contribute to

Regional Integration /

Support Africa Union's

Second Decade of Education

for Africa

The Faculty of Science and Technology of Settat (FSTS)

is an academic institution within the University Hassan first. Its missions are:

• Higher education in science and technology
• Vocational Education
• Applied research and service provider for the development of regional and national economy.

Hosting Institution in Brief

http://www.ensias.ma/

Training Engineers (2010)
- *16 Intakes*
- *1400 Trained Engineers*

Human Resources
- *57 Teachers Researchers*
- *45 Administrative officers*

Continuing Education
- *982 training beneficiaries*

Research Activities (2010)
- *Center for doctoral studies*
- *Research labs*
- *13 research teams*
- *20 research projects*
- *100 PhD students*
- *80 publications per year*

Cooperation
- *12 partnership agreements*
- *4 European projects*

Events in Marrakesh

IEEE International Conference **EDUCON**

Marrakesh, Morocco 17-20 April 2012

Excursions for iCEER2013
Asni – Ouirgane Excursion
Essaouira Excursion
Marrakesh City Tour
Social Program : Gala Dinner

iCEER 2013

General theme:

Borderless Global Engineering Education, Research and Industrial Development

Important dates:

Abstract Submission : 30 January 2013

Abstract Acceptance Notification: 15 February 2013

Full Paper Submission : 10 March 2013

Final Acceptance Notification: 10 April 2013

Camera Ready Submission : 25 April 2013

Conference days : 26-29 June 2013

It's time to bring iCEER 2013 Conference To Africa
Marrakesh 26/29 June 2013

Thank You
