PUBLICATION POLICY FOR *iNEER INNOVATIONS SERIES*

The hard cover iNEER *Innovations Series* constitute the annual Special Volumes that have been published every year since 2002. The series has an International Standard Serial Number ISSN number 1553-9911 and a U.S. Library of Congress Control No. 2004215784, and each book is identified by a distinct ISBN number. Past issues are still available through iNEER. Each volume is edited by an international Board of Editors, and each paper is peer reviewed.

Books in the *iNEER Innovations Series* seek to disseminate teaching innovations worldwide as faculty strive to improve teaching and learning, upgrade the courses they teach, help establish new degree or certificate programs, create new courses or course modules, design innovative programs to involve students in research, or otherwise work on the integration of research and education. iNEER believes that there is great benefits for the readers and for both the authors and the institutions they represent in disseminating and publicizing these and other innovations, sharing experiences and lessons learned, and further enhancing innovation and the productivity of their work through a dialog with members of the international peer community.

Papers for iNEER Special Volumes are accepted and reviewed on a first come first served basis. Prospective authors are advised to refer to the paper guidelines (http://www.ineer.org/iNEERPapers/GUIDELINES_FOR_AN_iNEER_PAPER.htm)

The publication of the *iNEER Innovations Series* is in line with the aims and objective of iNEER. Focused on promoting further advances in education and research worldwide through international partnerships, the International Network for Engineering Education and Research (iNEER) is a non-profit professional organization formed by the world community in engineering and allied fields to foster communication and collaboration. There is no membership fee. The widening iNEER network of educators and researchers currently covers 98 countries, and is linked through the iNEER website, archival publications, e-mails, conferences, workshops, and retreats.

Copies of the *Innovations* books are included free-of-charge in the registration packages for iNEER conferences. Recent events of the iNEER Network include:

 ICEE-2011 (http://icee2011.ulster.ac.uk/index.php), hosted by the University of Ulster, August 2011 in Belfast, Northern Ireland;
iCEER-ICIT 2012 (http://icit12.sstu.ru/), hosted by Saratov State Technology, Saratov, Russia, June 2012;
ICEE-2012 (http://www.icee2012.fi/), hosted by Turku Universitu of Applied Sciences in Turku, Finland in July-August 2012; and for the first time in the African continent:
iCEER-2013 (http://iceer2013.labader.org/), hosted by ANSIAS, the École Nationale Supérieure d'Informatique Appliquée et Systèmes, June 2013.

Other iNEER conferences have been hosted by universities in Portugal, Puerto Rico, Poland, Brazil, Czech Republic, UK, Norway, Taiwan, and USA. In December 2013, we will be meeting at ICEE-ICIT 2013 in Cape Town, South Africa at Cape Peninsula University of Technology under the auspices of Rector Prof. L.V. Mazwi-Tanga.
